

Stump Grinder

EDGE

- 55° cutting arc to make a full pass on a 45" stump
- Available for skid-steer loaders and compact utility tractors
- Easy tooth maintenance, no special tools required

Quickly disintegrate stumps into woodchips with the EDGE Stump Grinder. Models are available to mount to your skid steer or compact utility tractor. Both will make a full pass on a 45" stump without repositioning. Skid steer models are available for standard or high-flow hydraulics, and tractor models fit tractors from 15-100 hp. The stump grinder features heavy duty carbide steel teeth that will slash through the hardest wood with ease. Tooth maintenance is practically effortless - they are easy to access and replace with a standard wrench size. The cutting wheel is 3/4" (19 mm) thick, and 24" (609 mm) to 36" (914 mm) in diameter. Combine this with the 55 degree cutting arc, and you can make quick work of those stumps up to 45" in diameter.

Specifications:

Model	Wheel Diameter, in (mm)	Cutting Depth, in (mm)	Wheel Speed, rpm	Hydraulic Flow, gpm (lpm)	Tractor HP	Weight, lb (kg)
SG25H	24 (609)	10 (254)	725	15-25 (56-94)	n/a	740 (335)
SG50H	36 (914)	12 (304)	795	25-40 (94-151)	n/a	1140 (517)
SG24	24 (609)	10 (254)	908 (@540 PTO rpm)	n/a	15-35	780 (354)
SG34	34 (864)	12 (304)	895 (@540 PTO rpm)	n/a	35-100	1020 (463)
