

Auto Rake

EDGE

- Ideal for grooming and finishing soil for seeding
- Picks up rocks from ¾" to 6" diameter
- Easy to dump bucket

The EDGE Auto Rake is an ideal tool to groom and finish soil for seeding and sodding. It breaks up clods, removes stones and levels the soil at the same time. When it's time to dump the bucket, simply raise loader arms and open the shroud hydraulically. Two sizes are available for standard flow skid steer loaders. Features include heavy duty rake chain, hydraulic motor, and cylinder.

Specifications:

Model	Hydraulic Flow, gpm (lpm)	Hopper Capacity, ft ³ (m ³)	Working Width, in (mm)	Weight, lb (kg)
AR66	10-25 (37-94)	13 (0.37)	66 (1676)	1092 (495)
AR76	10-25 (37-94)	15 (0.42)	76 (1930)	1200 (544)
